

Blackford Farms Limited

PROPOSED SOLAR FARM DEVELOPMENT

Blackford Farms Limited would like to share plans for a proposed solar farm development at land bounded by the A9 and Bardrill Road, Blackford.

The development will provide the Highland Spring Group site with electricity from renewable sources via a private wire connection while also providing wider community benefits.

The solar farm will deliver significant long term, permanent carbon reductions and support Scotland's ambition to reach net zero greenhouse gas emissions by 2045.

The event will include a 30-minute presentation with more information about the proposals, and an opportunity to ask questions.

Blackford Farms Limited and Highland Spring Group are committed to being a good neighbour and looks forward to sharing the plans in advance of submitting a formal planning application.

Event Details

Location - Virtual Presentation via Microsoft Teams

Date - Thursday 31st March 2022

Time - 19:00 - 20:00
